Reinforced Nazis Suffer Heavy Loss On Italian Front

Three Fierce German Counter Attacks Of Nazis Are Repulsed By Yanks

MANY PRISONERS REPORTED TAKEN

By PIERRE J. HUSS
(U. S. Staff Correspondent)

ALGIERS, Nov. 15.—

American units on the Italian battlefield have repulsed three fierce German counter-attacks by reinforced Nazi troops, inflicting heavy losses upon the enemy and taking many prisoners, it was revealed today.

Among the German regiments whose counter attacks were driven off was the famous Twenty-Ninth Panzer Grenadiers, crack Nazi motorized infantry unit especially trained to fight in conjunction with tank units.

There was little change on the front occupied by Lieut. Gen. Mark W. Clark's Fifth Army, the command disclosed. On the Adriatic end of the battle line, occupied by Gen. Sir Bernard L. Montgomery's veteran Eighth Army, "successful patrol actions" took place.

Launch Attacks

It was on the extreme right flank of the Fifth Army, where Gen. Clark's men on Saturday came to hand-to-hand grips with the enemy and decimated two Nazi battalions near American-held Montaquilio that the Germans launched their three counter-assaults.

In forcing back the enemy's attempted counter-assaults, these Yank Doughboys made some slight advances, it was said.

Farther to the northwest, Allied troops battled their way to some high ground near Ronero, overlooking the town of Ronero.

PA NEW OBSERVES

This week is National Book Week.

Nearly all cars driving along the streets at 8:15 this morning had their lights on it was that dark.

One week from Thursday is Thanksgiving Day. Observance this year will probably be more reverent than for many years.

With temperature dropping below freezing during the past week there was quite a rush on the part of motorists to get anti-freeze preparations in radiators of their cars. Weather today has modified some, but temperature is likely to drop any day or night at this season of the year.

Great quantities of ashes have been stored by the city and state in preparation for skiddy streets and highways. So far conditions have not required any ashing work, but the city and state are prepared for any sudden arrival of these conditions.

Mailing much earlier than in normal years is urged for all Christmas packages and greetings this year, by the post office department. Wartime presents many conditions to the postal service that require that the huge holiday business be launched earlier than usual. Mailing during November is urged by the post office department.

TRANSPORT PLANE OVERDUE; DOCTORS AND NURSES ABOARD

LONDON, Nov. 15.—(INS)—"Grave anxiety" was felt today at Naples for a Douglas transport plane carrying 25 American doctors and nurses to the Italian front, the Daily Telegraph reported today. The aircraft has been overdue for several days.

Turkey's Position Now Becomes More Important

(The strategic position of Turkey is discussed in the following article by Major Paul C. Raborg, noted military analyst and author of "Mechanized Might.")

By MAJOR PAUL C. RABORG
Written Especially For International News Service

NEW YORK, Nov. 15.—The military strategic position of Turkey becomes ever more important as the red armies in the Ukraine move westward towards the old border lines of Poland and Rumania.

It has been assumed that Hitler, after his troops are withdrawn from Russia, would attempt to defend a "fortress Europe" bounded about

as follows: on the east—the eastern borders of Finland, the Baltic states, Poland, Rumania, and in Bulgaria down to the Black sea junction of Bulgaria with European Turkey.

On the south: a line running westward from the junction of Bulgaria and European Turkey, angling slightly northward through Bulgaria and northern Yugoslavia, and traversing the Balkan mountains to the Alps or the line of the river Po in Italy, then following the French Mediterranean coastline to Spain, and thence due west to the Bay of Biscay through the Pyrenees mountains on the southern border of France. U. S. BOMBERS BLAST YOCOW

CHUNGKING, Nov. 15.—(INS)—American B-25 medium bombers and P-40 fighters supporting Chinese troops in the Tungting Lake area dropped more than eight and one-half tons of bombs on enemy installations at Yochow, Lieut. Gen. Joseph W. Stilwell's headquarters announced today.

The raids, which occurred Saturday, destroyed at least five buildings and silenced anti-aircraft positions.

On the same day, others of these same medium bombers attacked Japanese positions at Shasi. From these operations, one United States 14th Air Force plane was reported missing.

New Guinea Jap Strongholds Are Heavily Bombed

Over 200 Tons Of Bombs Are Dropped On Enemy Targets By Allies

JAP AIRFIELDS ARE SMASHED; SHIPS HIT

By FRANK ROBERTSON
(U. S. Staff Correspondent)

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, Nov. 15.—A record-breaking and highly successful attack on Japanese strongholds in New Guinea, in which allied airmen plastered the Jap targets with 223 tons of bombs was reported today by General Douglas MacArthur.

Of the results of the raid, MacArthur's communique graphically reported:

"The entire target area was covered with a heavy hail of smoke as our bombers left."

Shattering Assaults

The shattering assaults were directed against enemy installations at Aitape-Madang area on the northeastern coast of New Guinea.

Simultaneously other allied units plastered Jap airbases on either end of embattled Bougainville island in the northern Solomons.

The New Guinea attack was launched just at dawn Saturday when allied fighters swooped out of the sky and from tree-top height poured machine-gun and small cannon shells into fuel and supply dumps. They wrecked four Jap planes parked on the ground, and silenced several anti-aircraft batteries which offered resistance. Only one of our fighters was lost.

Hardly had the swift fighters roared away from the fires that heavy four-engine bombers and medium, twin-motored aircraft roared overhead.

Second Cold Wave Nearing Midwest

CHICAGO, Nov. 15.—(INS)—The second cold wave, with sub-zero temperatures in some areas, was forecast by the weather bureau today for midwestern states.

Sharp drops in temperature will be experienced by tomorrow morning from northern Minnesota, where the mercury may drop to 10 below zero, to southern Illinois and southern Iowa, the forecaster said.

Temperatures were expected to range from the low in Minnesota to zero or 5 above in southern Wisconsin, northwestern Illinois and southern Iowa and to 15 above in southern Illinois.

Strong winds accompanied by snow in some sections were predicted.

REPORT ITALIANS ARE EXECUTED BY NAZIS

LONDON, Nov. 15.—(INS)—As a result of attacks on German soldiers in northern Italy, Nazi authorities recently took 100 Italian hostages from a concentration camp in Turin and shot or hanged them, the British radio said today, according to CBS. Swiss reports were quoted.

Soviet Forces Hammering Way Toward Poland

Red Troops Approaching More Important Nazi-Held Rail Centers

N. W. OFFENSIVE IN DNIPIER BEND

By NATALIA RENE
(U. S. Staff Correspondent)

MOSCOW, Nov. 15.—Russian forces hammering their way steadily toward Poland, outer bulwark of the Reich, today threatened two important rail centers still in German hands.

Front dispatches said that Red army units already are within five miles of the Gomel-Rechitsa railway and but seven miles from the vital junction of Rechitsa itself.

Cossack cavalrymen operating across the plains between the Kiev-Korosten railroad and the Pripiet Marshes were reported threatening to cut off Korosten from the north.

Units of the Vital White Russian enemy bastion of Gomel, would imperil the Nazi garrison of that city and interfere greatly with any attempt to evacuate the German forces by rail.

But 55 Miles from Poland Korosten, most important rail junction still held by the Germans east of the Polish border, stands but 55 miles from Poland. And rapid progress has been made toward that city along the strategic Kiev-Korosten road south of the Pripiet Marshes.

Units of Gen. Feodor Vatulins' army surged 8 miles from Kiev to Zhitomir in the last week and then continued farther.

A broad wedge driven into German defense positions west of Kiev continued to advance as the Russians captured Pryazhev, six miles south of recently-liberated Zhitomir, and took Chepovichi, only 16 miles southeast of Korosten.

Zhitomir, an important rail and highway junction on the last north-south railroad east of the Polish border, lies some 48 miles south of Korosten. The latter, equally vital to the German-controlled Paris radio announced a new grand offensive.

O.P.A. WARNS ON SUBSIDY NEEDS

Says Failure To Approve Continuation Will Be Serious Anti-Inflation Blow

By PHILLIPS J. PECK
(U. S. Staff Correspondent)

WASHINGTON, Nov. 15.—O.P.A. officials asserted today that failure of Congress to approve continuation of the nation's billion-dollar subsidy program will be an even more serious blow to the anti-inflation program than a breakdown on wage stabilization.

The O.P.A. warrent came as commissioners of the agriculture and livestock departments prepared to appear today before a Senate agricultural subcommittee investigating food costs.

On the eve of the hearings, Sen. Smith (D. S. C., chairman of the subcommittee, flatly predicted that "subsidies will be definitely defeated in the Senate."

The farm representatives were reported to be generally opposed to any form of government subsidies. Spokesmen for approximately 500 representatives of agriculture and livestock industry urged more efficient administration by O.P.A., instead of subsidies, as a remedy for the critical food situation.

They warned that the basis of present production, serious food shortages will confront the nation between January and June of next year.

Charles also purchased \$2 in stamps for his own bond.

Investigate Wreck Costing Four Lives

COLUMBUS, O., Nov. 15.—(INS)—Authorities today investigated the train-automobile crash early Sunday which derailed the locomotive, fatally injuring the engineer and three women in the auto.

The westbound St. Louisan, crack Pennsylvania flyer, bound from New York to St. Louis, struck the car containing the three women who were killed shortly after midnight, killing them and the engineer almost instantly.

The dead were C. L. Wollard, 50 engineer, of Stuebenville, Mrs. Sylvia Weber, 37, owner and driver of the car; Mrs. Eola D. Choviat, 37 and Mrs. Wilma Geraldine Downing, 32, all of Columbus.

Bar Members Hear Leaders

National And State Association Presidents Address Four-County Session

Four addresses of unusual merit were heard by attorneys of the Lawrence County Bar Saturday afternoon and evening when a two session meeting of Zone 10, Pennsylvania Bar Association, was held in the Castleton Hotel. The afternoon session was addressed by Robert S. Frey, director of the Legislative Reference Bureau of Harrisburg and Attorney Mahlon E. Lewis of Pittsburgh. The evening session was addressed by the president of the American Bar Association, Joseph W. Henderson, and William Clarke Mason, president of the Pennsylvania Bar Association.

In the afternoon Mr. Frey reviewed the laws enacted by the General Assembly of 1943. One of the keenest minds in the state in legislation Mr. Frey's address was interesting and informative. Mr. Lewis' address on "Administrative Law" was one that had the attorneys still talking about it late Saturday night. In it he discussed present day practices, made some rather sharp but intelligent criticisms and covered his subject in a thorough manner.

Dinner Session

The evening session was a dinner meeting in the ballroom of the hotel. Attorney Chauncey E. Brockway, of Sharon, regional director of Zone 10 was the chairman of the day and the toastmaster of the evening. Before introducing the speakers he spoke briefly and thanked the attendees from Lawrence, Beaver, Butler and Mercer counties for being present.

Mr. Mason spoke first. He said that the usual annual meeting of the state bar would not be held this year but that in its place five regional meetings would be held.

Soldier Killed In Collision Of Autos

GETTYSBURG, Pa., Nov. 15.—(INS)—Pfc. Ralph Shultz, 19, of Landisville, was instantly killed near York Springs early today when two cars collided and overturned resulting in injuries to several other persons, including three soldiers.

Police reported the Berks county youth sustained a fractured skull and internal injuries.

The two cars overturned after colliding, police added.

Sixteen-year-old Harold Little, of Hanover, and Emma Keller, of Carlisle, both suffered possible fractured skulls and internal injuries. They were taken to a local hospital in serious condition. The soldiers were taken to a military hospital at Carlisle barracks for treatment of minor injuries.

Land Survivors Of Sunken Nazi Subs

MADRID, Nov. 15.—(INS)—Spanish fishing boats today landed 34 survivors of two sunken Nazi U-boats at El Ferrol. The German submarines were sent to the bottom by Allied attacks—presumably air attacks—off the Spanish coast.

It was also reported that a third Nazi sub was sunk off Barbate, near Cadiz, by British destroyers. The majority of the crew was saved, and now are en route to Gibraltar as prisoners of war.

Sofia Bombing Opens New Phase Of War By Allies

Devastating Attack Is Made On Railway Yards At Bulgarian Capital

FIRST TIME SOFIA HAS BEEN TARGET

By J. C. OESTRICHNER
(U. S. Staff Correspondent)

The full impact of their fatal error in plunging into a hopeless war on the side of Adolf Hitler was felt in Rumania and Bulgaria today.

Soviet troops swept steadily westward toward the Rumanian and Polish borders and American Mitchell bombers of the 12th United States Army Air Force carried out a devastating attack upon the vital railway yards at Sofia, capital of Bulgaria.

In the words of a spokesman at Gen. Dwight D. Eisenhower's headquarters in Algiers, the mission to Sofia will have "far reaching consequences." It was described officially as "opening a new phase in the war."

First Sofia Raid

It was the first time Allied planes operating from the western Mediterranean theatre had raided Sofia and favorable results were immediately apparent. Not only was tremendous damage wrought in precision bombing of highly important installations, but a stunning effect on Bulgarian morale appeared inevitable.

Inasmuch as Bulgaria is waging only token warfare at best against Soviet Russia, the people of this puppet kingdom joined in Hilcockian political and diplomatic ties since have suffered but slightly from the conflict. If the operations of the north-west African air forces now are to be directed against the Balkans, Bulgaria's exemption has come to an end.

It is a safe assumption that this

DAYLIGHT RAID MADE ON SOFIA

Bombers Of North African Air Force Carry Out Raid On Bulgarian Capital

By GRAHAM HOVEY
(U. S. Staff Correspondent)

ALGIERS, Nov. 15.—Bombers from the North African Allied Air Force carried out a daylight raid on Sofia Sunday, it was announced in an official communique.

"DNE" the Nazi agency, reported that a number of persons were killed and wounded when "several waves" of Allied planes bombed the Bulgarian capital. The alert in Sofia lasted 90 minutes, DNE said, adding that "great numbers" of Allied planes took part in the attack.

Spokesmen at Allied air headquarters revealed that twin-motored mediums made the attack.

Railway objectives in and around the Bulgarian capital were the targets, it was stated.

The attack, carried out by Mitchell bombers escorted by twin-fuse-lagged Lightning long-range fighters, was the first raid on the Bulgarian capital by the Allied air forces from this theatre.

It might be termed the opening of a "Balkan offensive," officials said, and the raid was expected to have "far reaching consequences."

The raiders dropped many tons of bombs, and scored direct hits on locomotive shops, assembly plants and depots of the vital rail center through which Nazi military supplies and troops pass en route to occupied Greece.

Governor Bricker Is Not Candidate For Fourth Term

COLUMBUS, O. Nov. 15.—(INS.)—Gov. John W. Bricker today removed himself from the 1944 gubernatorial picture by announcing he would not be a candidate for a fourth term, but would concentrate his efforts on securing the Republican presidential nomination.

"In view of the great need, confident of the fact that the Republican party will be called upon to lead our nation at the next election, I shall be a candidate for president of the United States in the Ohio primaries and before the Republican National convention," Bricker said.

"It is necessary to the preservation of the institutions of the republic that a public official relinquish office and authority at the proper time as well as assume it when there is a need for his services."

"With these basic convictions and with a deep gratitude to the people of Ohio for the opportunities that I have had to serve them, and to have a constructive part in government during these dangerous days, I want now to make it publicly known that I shall not be a candidate for a fourth term as governor of Ohio."

income of the contributing member states will, it is hoped, be sufficient to meet the needs," Mr. Roosevelt said in his message.

Some May Pay

"Some of the liberated nations may be able to make payment for the supplies and services received. But only by bringing to bear the resources of all the United Nations will be able to relieve a substantial part of the suffering of the millions who will need help."

The president told congress that each country "will determine for itself the amount and character of the contribution which it can make," and that the congress of the United States will pass on the amount of this country's contribution "under its constitutional procedure."

He told the congress that "U.N.R.R.A. will be able to make only a beginning in the vast task of aiding the victims of war."

"The greatest part of the job will have to be done by the liberated peoples themselves," he said. "What U.N.R.R.A. can do is to help the liberated peoples to help themselves, so that they may have the strength to undertake the task of rebuilding their destroyed homes, their ruined factories, and their plundered farms."

The relief task to be undertaken by U.N.R.R.A. the president made clear, is only the beginning of reconstruction of Axis-occupied countries as they are liberated by United Nations armed forces.

"U.N.R.R.A. will not, of course, be expected to solve the long-range problems of reconstruction," he stated. "Other machinery and other measures will be necessary for this purpose. What U.N.R.R.A. can do is to lay the necessary foundation for these later tasks of reconstruction."

Speaking on uniform rules of practice he urged that the rules be so standardized that state and federal practice would be more or less the same.

Mr. Mason advanced an idea for the selection of judges both of the appellate courts and subordinate courts that although somewhat revolutionary to the layman has a lot of merit. In the appointment of appellate judges he would have a committee consisting of three attorneys, three business men and a member appointed by the governor of the commonwealth, submit a list of three candidates from which the governor would select one. After serving a year the appointee would run against his record and if the people endorsed his record he would be elected for a ten year period. Subordinate judges in the counties would be selected similarly except that the nominating board would consist of two attorneys, two business men and one named by the governor.

Mr. Mason presented two ladies who were present, Dr. M. Louise Rutherford, a deputy attorney-general and Mrs. Barbara Lutz, secretary of the Pennsylvania Bar Association.

National President

Joseph W. Henderson of Philadelphia, president of the American Bar Association, was presented and spoke. Mr. Henderson spoke at some length upon the workings of the national bar association and urged that the association be strengthened from below. He asked that every eligible attorney become a member of the national association to the end that the organization be made strong.

The one feature of the national association he stressed was the legal aid bureaus set up for service men and women. He recited specific instances of what had been done and read a number of letters from men and women who had been helped or asked for help. The addresses of both Mr. Mason and Mr. Henderson were by men who knew what they wanted to say, said it, and then sat down. Both were interesting and either one was ample reward for the presence of the attorneys.

TURKES POSITION BECOMES IMPORTANT

(Continued from Page One)

Axis-occupied Europe is the sea coasts of the Atlantic ocean, the English channel, and the North sea to the northern point of Norway.

Vital Situation

However, if Turkey grants to the United Nations the use of territorial bases and permits allied troops to pass through her country it would then be impossible for the German general staff to tie down his armies from southern Russia or the Ukraine, will not be able to stop on the Bessarabian or Rumanian border or on the Black sea coast of Bulgaria.

When this crisis of retreating German armies in southeastern Europe occurs, if Hungary, Rumania, Yugoslavia, Bulgaria, Albania and Greece are chopped off and taken away from the Axis, it will make necessary an entire new southern line of defense for the Nazis which might roughly follow the northern borders of Rumania and Hungary to Germany proper.

Therefore, if Turkey follows any of the courses of action mentioned she alone can alter the entire pattern of the coming battles for southern Europe. Almost of a certainty Stalin will demand some re-shipment of control of the straits of Bosphorus, the sea of Marmora and the Dardanelles as these three bodies of water are the exit from the Black sea. The least the Russian premier might ask for would be some system of mutual control of that exit.

If Turkey takes an active part in the conclusion of the war in the west, and thereby helps Soviet Russia and the allies in delivering final defeat to Hitler and Hirohito it would seem possible that Stalin's demands for an exit from the Black sea might be made as easy as is possible for Turkey.

The only form of clothing that may be manufactured in Nazi Germany after Sept. 30 will be military uniforms and mourning clothes, according to a Berlin announcement.

Pittsburgh Sees Turkey Shortage

PITTSBURGH, Nov. 15.—(INS.)—A 50 per cent shortage of turkeys for Thanksgiving appeared likely today as Western Pennsylvania farmers and wholesalers of locally produced poultry indicated they are going to hold up sales in protest against OPA ceiling prices.

Another drain on the domestic supply of "early" turkeys was caused by requisitions for the armed forces. It was believed the condition will be reversed by Christmas, with more than enough turkeys to go around. Most large Western Pennsylvania producers apparently intended holding their stock for the Christmas season hoping to get

higher prices through a possible adjustment of OPA ceiling prices. They claim current prices are too low to cover production costs.

VATICAN FAMILIES MAY BE REMOVED

STOCKHOLM, Nov. 15.—(INS.)—The Swedish telegraph bureau today declared that the Pope has urged Vatican officials to remove their families from the Holy City. The Holy Father placed at the disposal of the evacuees the papal summer residence, the dispatch said, adding "the evacuation is prompted by a desire to avoid panic similar to that on the night of November 5th when bombs fell."

The final proof of tact is to have a friend lie to you and protect his feelings by pretending to believe it.

DON'T FORGET that the difference between insurance companies is significant. When buying life insurance, you may well save yourself premium dollars if you will do these two things—(1) listen carefully to the Northwestern Mutual agent's full story of a wonderful dividend record, and (2) check with any of our policyholders, for they can tell you, better than we can, why no company excels Northwestern Mutual in that happiest of all business relationships . . . old customers coming back for more.

Armour Ideas Make the Most of Meat

Surprise Hit—Barbecued Lamb Shanks!

If it's variety your family wants... shanks. Then fix barbecue sauce this way. Combine 1 cup chopped onions, 1/2 tsp. pepper, 2 tps. sugar, 1 tsp. dry mustard, 1 tsp. paprika, 4 tps. Worcestershire sauce, 1/4 tsp. Tabasco sauce, 1/2 cup catsup, 1/4 cup vinegar and 1/2 cup water.

Pour this sauce over meat, cover and bake in 350° F. oven 2 hours or until tender. A good way to extend the meat flavor is to serve barbecued lamb shanks over fluffy rice as shown above. Serves 6.

Melt 1 tbsp. Armour's Star Lard in a heavy frying pan and brown lamb.

Helpful Tricks in Saving Used Fats

TAKE ANY TIN CAN and tie cheese-cloth loosely over top. Or set an old strainer on top, and leave it there. Add every drop of kitchen fats you can no longer use for cooking. Or just throw fats into can *unstrained*, and when can is full, strain the whole lot at once into another can.

PLEASE HELP! Used fats no matter how black are needed desperately for ammunition and for medicines. Save them in a tin can, not glass. Any kind of can will do. Rush them to your meat dealer. Start doing it today, won't you?

DOLLARS MAKE JOBS

IF WE are to prevent postwar unemployment we must not ignore the fact that, in our civilization, man does not work with his bare hands.

Rather men work with tools, machines and other equipment ranging in cost from \$2,500 per worker in the leather industry to \$25,000 in railroads and steel, according to Emerson P. Schmidt in Nation's Business.

Stripped to essentials, the unemployment problem becomes an investment problem, says Mr. Schmidt. For every returning soldier who gets a job somebody must invest \$5,000.

Therefore, concludes Mr. Schmidt, taxation and all other factors that affect incentive to invest or to save money for investment also affect the ex-soldier's chances for employment.

BIG INCREASE IN 'EATING OUT'

It is reported that since food rationing began the patronage of public eating places in most cities has increased hugely. The increase is attributed to a desire to save rationing points in homes.

The Society of Restaurateurs of New York City reports that its figures show patronage of the city's restaurants has increased more than 100 per cent. It took many proprietors of eating places in the metropolis a month or more to prepare to handle the greater volume of business, according to Paul Henkel, president of the organization.

One of the first moves was to encourage the public to eat earlier. Previously the bulk of business came between 1 and 2 p. m. and between 7 and 8 p. m. Now the public can be seen in larger numbers entering restaurants at noon and as early as 6 p. m. This doubles the length of the period when capacity crowds are accommodated.

The accusation that good service in restaurants is gradually becoming extinct is without foundation, says Henkel. Restaurants have had to contend with increased costs and a labor shortage but they have held up their end of the burden better than they anticipated would be possible when the crisis confronted them.

PRIMITIVE WARFARE

An amazing aspect of modern warfare is that although it is highly technical and is fought on a "global" basis with airplanes playing a vital part, on many fronts military officials put emphasis on methods of warfare in vogue in the Middle Ages.

It is recalled how the Ethiopians, although hopelessly outnumbered and out-equipped, caused the Italians much harassment with primitive methods of fighting. When the Russians invaded Finland, they were very nearly repulsed by ski troops, which have since become a part of nearly every major fighting machine on the face of the globe.

Realizing that matching big gun with big gun is sometimes of little value to either contender, most of the warring nations have inaugurated a system of fighting known as "commando," named after British commandos, established early in the war, which functioned with devastating success against German-held garrisons. Now the American fighting machine, with Army and Navy commandos, has followed suit, teaching rough and tumble, hand-to-hand guerrilla fighting.

It is difficult for the enemy to offer rebuttal to this type of fighting, as demonstrated by the Chinese guerrillas against the Japs and the Russian Cossack guerrillas against the Germans on the Russian steppes.

JAP NAVAL LOSSES

Japanese naval losses are difficult to estimate. For one thing, we have been popping off ships pretty fast at Rabaul and elsewhere lately, but, in his Navy Day address, the commander of the fleet, Admiral Ernest J. King, said:

"Our ships and carrier-based planes have destroyed more than one-third of the total tonnage Japan had at the time of Pearl Harbor."

And that doesn't take into consideration the damage wrought by General MacArthur's land-based planes. Indeed, one estimate shows that it would take Japanese shipyards, working at peak capacity, four years to make good the ships sunk in 23 months of war.

The Japs have been loathe to risk battleships in action. As a result, we have sunk largely cruisers, carriers and destroyers. But this has unbalanced the Jap navy by stripping away the protective screen the big dreadnaughts must have.

Accurate information is, of course, impossible, but Japan is estimated to have 10 and possibly 11 battleships and the United States 21. The Japs are believed to have around 15 cruisers as against 55 for the U. S. A. We have between 300 and 400 destroyers and the Japs about 80. It is impossible to estimate carriers strength, since both nations have been converting merchant ships to floating flying fields.

Big naval action may be coming up soon in the south or southwest Pacific. It is hard to see how the Japs can reinforce their garrisons on Bougainville, New Britain and New Ireland without risking ships and plenty of them. The closest base from which reinforcements could come is Truk in the Caroline island—nearly 1,000 miles north of Rabaul.

During the trip the convoys, for the most part, would be beyond the protection of land-based planes. Any such attempt is almost bound to touch off naval action.

And as far as the United States fleet is concerned, naval action is just what the doctor ordered.

The British can talk about their bank holidays, but we have three of them in November alone.

New German army draft exempts Nazi party members. Oh, well, they'll come in fine for the war criminal trials.

Moscow had energy enough left to give an enthusiastic reception to Shostakovich's Eighth Symphony. A hardy people, the Russians.

Russians considered our chief representative at the Moscow conference a "thuster." In other words, there are no barnacles on the Hull of our ship of State.

REGULARITY

Did you notice how good Dick looked when he was home on furlough?

Regularity keeps the boys fit.

They have a schedule for everything.

They get up on time.

They eat on time.

They go to bed on time.

Our bodies adjust themselves to a regular schedule.

A regular attendance at church helps too.

A regular time for recreation is a good thing.

FOR PHYSICAL FITNESS

About a year ago, I wrote several articles in this column pointing out that the war has made clear to us the need of a return of some good old-fashioned athletics for school children. This need is not just for the youth about to be inducted into the armed forces and for strong women on the home front now, but also for building strong men and women for the period following this war.

I venture to emphasize this need again for, from what I have learned through personal conversation with various school authorities throughout the United States during the past year, there has been very little change in the physical education of the rank and file of school children since Pearl Harbor.

In some high schools there have been vigorous toughening courses for the boys approaching the induction age. But for the girls of the high school and all children from the first grade through the ninth, the physical training program is about the same as it was a few years ago.

Formal Exercise Beneficial

Physical training directors are still holding firmly to their faith in so-called "motivated physical exercise" in the form of some kind of play and to their contempt for anything of a formal nature comparable to the setting-up of exercises given recruits in the armed forces. These physical training leaders still contend, as a rule, that the play activities they provide for the school child give him all for the necessary muscular and postural exercise he could get in formal exercises. A good many of us parents have never been impressed with their contention. Certainly those who are training the men in our armed forces aren't.

In a few months, young men with weak stomach muscles, protruding midriffs, and stopped shoulders can develop muscles strong enough to hold their stomachs in and their shoulders up, why would it not be useful education for school children from the first grade through high school, to have formal physical exercises to develop strong stomach muscles and other muscles for good posture while these children are growing? Certainly there is no more evidence than the prevailing practice of physical education in the public schools of the United States have guaranteed such desirable development.

Practices Abandoned

Not all past practices in education were good, nor were all of them bad. Thirty years ago, in many school systems of our country, all school children from the tots through high school, several times a day, with the classroom teacher leading them, before open windows, went through a series of bending, stretching and deep-breathing exercises, not unlike the setting-up exercises of our army and navy recruits today. The children seemed to like these exercises, too. But this practice disappeared from virtually all our classrooms, since it seemed to leading educators too formal and too much like required work. Mind you, this program took but a few minutes a day and could, if reformed, be done in addition to some informal exercises at regular physical education periods. Incidentally it would afford the teacher some needed exercise and relaxation.

Thanks to lire and gas rationing, many school children are blessed today with the privilege of walking to school. But for many of these children this exercise is not enough. Besides, thousands of children ride to school on buses and trolley cars. Why is it, too, that on clear days of moderate temperature, even warm days, so many school children have their physical training period indoors with the playground or athletic field unused?

A grouchy on a Highland bus had quite an argument with a woman the other day. She said, "I insist that you must not give me your seat." You can insist all you want to," he replied, "I'm getting off here."

Very often some clever people do things that get them into jail.

One thing sure is that there will be a great demand for things people need after the war—or maybe want.

A millionaire industrialist and sportsman says he has never yet visited a night club. This is perhaps the chief reason why he is still a millionaire.

HINTS AND DINTS

Sun sets tonight 5:45. Sun rises tomorrow 7:54.

Plans are being made in Washington to make it easier for soldiers in the service to vote at coming elections. Good!

When a cow is hit by an automobile the steaks are shaken up.

Gasoline for trips south will not be easy to get. A warm climate is not essential.

A Canadian thief stole a baby's rubber pants. That bird deserves a long stretch.

One thing we can all bet on and that is the cost of victory will be high.

THE EDITOR'S HANDICAP
On one thing there is general agreement: Anyone could do a better job than is being done by those responsible for any publication.

That continues to be a fact, whether it be a newspaper, a magazine, or merely a letter to the family or forum. For an editor, life runs along—not so much like a song, but to a tune like this:

If we print jokes people we are silly.

If we don't, they say we are too serious.

If we clip things from other papers, we are too lazy to write them ourselves.

If we stick close to the job we ought to be out hunting news.

If we get out and try to hustle, we ought to be on the job in the office.

If we don't print contributions, we do not appreciate true genius; and if we print them, the paper is full of junk.

If we make a change in the other fellow's cup, we are too critical.

If we don't, we are asleep.

LOOKING AT LIFE

By ERICH BRANDEIS

Describing the reaction of New York's inhabitants to the lifting of the dimout on Broadway, a reporter wrote:

"Happy faces that turned upward to catch the play of moving light from the name signs and the re-maquies were a common sight—ALMOST LIKE SUNSHINE DRINKING IN THE WARM SUNLIGHT AFTER A COLD DARK WINTER."

I liked that description—almost like sunbathers drinking in the warm sunlight after a cold dark winter. I don't know whether you feel like I do about all this mess through which we are going.

Sometimes—quite often, as a matter of fact—I have a feeling of such utter futility, of complete discouragement.

What is it all about? What is the human race doing to itself?

All this uncertainty, the drifting from day to day, no plans to make, no sureness of anything.

Noble words and evil deeds. Murder and arson, sabotage and treachery, cruelty and everything that's vile in human nature.

And yet must there not be some sort of purification coming out of all this chaos?

Can all this sacrifice and all these heartaches be in vain?

Can it be possible that we have all become so hardened and so sophisticated that once again we will all learn the bitter lesson that a selfishness and greed, that force and lust for power do not pay?

Will you whose boys are fighting and dying for you, ever place no joy and success above kindness to each other, above friendship, tolerance, charity and love?

Please do not think that I am one of those preachy good-goodies who goes around in hypocritical righteousness.

I have the average record of sins of commission and omission, and I hope you have too.

But I do hope that all this is just a cold dark winter and that before long we'll all be sunbathers again, drinking in the warm sunlight that we need so much.

And let us pledge that when the sun shines once again, we'll let it warm us through and through so that when another winter comes, we'll be able to bear it in fortitude and faith.

The Constitution guarantees the pursuit of happiness but you have to catch it yourself.

What Noted People Say

WASHINGTON—President Roosevelt: "God's help to us has been great in this year of march toward world-wide liberty. Our forces and our hearts and our souls have wrought well, and our weapons have not failed."

ALBANY—Gov. Thomas E. Dewey of New York, protesting U. S. food policies: "Fresh milk and eggs are an essential part of the diet of our people. The impending reduction in our supply of fresh milk and eggs would imperil the health of the people of New York state and their capacity to produce for the war effort."

WASHINGTON—Sen. Walter F. George (D. Ga.): "The OPA has 3,000 men and women working for it, and if it can't enforce its decrees without issuing orders affecting the entire industry, it should be abolished."

WASHINGTON—William Green, president AFL in letter to William H. Davis, WBL chairman: "Labor has accepted more bitter than sweet. It accepted the principle of wage stabilization notwithstanding the increase in the cost of living and notwithstanding that prices should be directed that prices should be stabilized as of September 15, 1942. The contrast between stabilized wages and soaring prices is glaringly disappointing."

Celebrate Good News Before It Happens
Dinners And Parties Abound In Capital
Secretary Hull Does Real American Job

By HELEN ESSARY

WASHINGTON, Nov. 15.—The capital mood of the moment is definitely gay. Slightly batty, if you ask me.

There are so many mink coats and silly hats and intense handshakes and come-hither smiles and cocktails around you would think it was Christmas. If you didn't remember that thousands of helpless people were fighting and dying within sound of the hitting-voiced radio.

There's a feeling in the air that the end of the war is near. The success of the Moscow pact which everybody dreaded to think about before it was undertaken has loosened the anxiety which never went too deep into the heart of this light-headed capital.

Everybody is giving parties—dinners, luncheons, teas, receptions, and the like. The neutral nations—Turkey, Egypt and Iran—have been receiving guests by the hundreds and feeding them on bounteous afternoon buffets of turkey, ham, champagne, sweetmeats and beaucoup Scotch.

URGES POSTWAR PLANS BE MADE

Chemical Engineers Hear Of Needs For Employment Following War

PITTSBURGH, Nov. 15.—(INS)—Action now to neutralize the threat of postwar unemployment was urged today by Petrus W. Meyer, vice president of Hercules Powder Company, addressing the American Institute of Chemical Engineers' annual convention.

Meyer said the nation would be giving up all it is fighting for if it failed to provide for employment after the war. He cited cooperative business planning in Delaware, which promises a 25 per cent increase over the prewar employment levels as one answer to the problem.

He declared it is necessary to enlist the efforts of medium sized and smaller industries to achieve that end.

Meyer, in discussing scientific research for business, said a research program can be put upon a profit-and-loss basis which will show positive value to a company, using his own concern and the chemical industry generally as examples.

Research is an industry," he said. "Its raw materials are ideas and its finished product appears on the market through the activities of the operating department after the ideas have molded into marketable products."

B'nai B'rith And Hadassah To Meet

B'nai B'rith will hold a joint meeting with the local Hadassah organization on Wednesday evening, November 17, at the Tifereth Israel synagogue, at 8:30 o'clock.

Mrs. David DeSola Pool will be the speaker. She is the national president of Hadassah.

The meeting is being held at Tifereth Israel synagogue, instead of the regular meeting place, the change being necessary due to the increased seating capacity.

Westminster Now Has Date Bureau

NEW WILMINGTON, Nov. 15.—A Date Bureau has been set up on the Westminster college campus by student council and is available to the civilian students and servicemen stationed on the campus.

Six representatives from the sororities, a member of the independent girls' group, and two freshman coeds have a list of the girls in the college and their qualifications. Names of the nine girls are posted in the servicemen barracks. The servicemen who wish dates will call any of the girls asking for the type of coed he would like. The representative will then pick some available girls from her group.

Girls that are contacted are Florence Menoher, Sigma Kappa; Arlene Beighley, Chi Omega; Gladys Brown, Beta Sigma Omicron; Jane Greer, Kappa Delta; Bea Zepp, Theta Upsilon; Jean Lawton, Alpha Gamma Delta; Nancy Slinker, Non-Sorority; and Dot McDowell and Pat Pittcock, freshmen.

First Baptists Hear Dr. Gordon Palmer

Continuing the centennial celebration at the First Baptist church, Dr. Gordon Palmer, president of Eastern Baptist Theological Seminary was the preacher on Sunday evening, delivering a powerful sermon, taking as his theme, "How To Be Your Best." Rev. O. W. Hurst, the pastor is a graduate of this seminary.

Chester Kyle, the director, gave a baritone solo, and the choir special music.

There were large audiences at morning and evening services.

At the morning communion service, administered by the pastor, ten new members were extended the hand of fellowship.

The centennial banquet and pageant will be given on Thursday evening, at Epworth Methodist church, commencing at 6:30.

FUMIGATION FUMES CAUSE THREE DEATHS

PERTH AMBOY, N. J., Nov. 15.—Three persons were dead and two others in critical condition from asphyxiation by cyanide fumes which Police Lieut. James Nolan said escaped into a tavern-apartment building at 161 New Brunswick avenue from an adjoining warehouse which was being fumigated.

Nolan identified the dead as Frank Check, 42; Helen Check, 16, his daughter; and Hugh McArdie, 72, a porter in the tavern. In Perth Amboy hospital on the danger list were Check's two sons, Robert, 16; and Frank, Jr., 18.

WARN BLACKOUTS NOT DISCONTINUED.

HARRISBURG, Nov. 15.—(INS)—The third service command again warned Pennsylvanians today not to expect a complete discontinuation of air raid practices and blackout drills.

It was pointed out that only the State Defense Council had abandoned defense units had incorrectly assumed all practices had been eliminated.

Maj. Gen. Milton A. Reckford, commandant, said the army may order an alert at any time and warned defense units to be ready for tests. The state council has hinted that two practice alerts may be called by the army this month.

WOMAN BREAKS ANKLE

Mrs. Hazel Roth, of R. F. D. No. 2, was treated at the Jameson Memorial hospital at 6 p. m. Sunday, for a fracture of the left ankle, sustained when she tripped and fell down a stairway at her home. She was able to be taken to her home after receiving treatment.

Army Trucks To Be Allocated To Towns For Holidays

BALTIMORE, Nov. 15.—(INS)—The U. S. army third service command was preparing today to allocate army trucks to postmasters in Pennsylvania, Maryland and Virginia to transport mail during the Christmas holidays to army camps, posts and stations.

Col. Lloyd E. Stegner, chief of the command's automotive section, said initial requests had been received from Harrisburg for 25 trucks and from Reading and Lebanon for six each. He added that orders had been received for more than 500 trucks. The war department has authorized use of the trucks at Christmas time, but emphasized they would be supplied "only in extreme cases."

AROUND CITY HALL

There are two men on the city payroll of whom little is known yet they are kept busy and perform a very satisfactory job. In fact they can paint a room, a building, a safety line or a sign. They are Messrs. Black and Pearce. Their paint shop is located in the bunk room police garage, where there are multitudinous signs "Don't Park Here"; "Safety Zone"; "No Solicitors"; "Office of (So and So)"; "Stop"; in fact all sort of signs. Whenever anyone orders a sign the painters are expected to do a House and pull one out of their sleeve. Usually they have one that satisfies the city official.

Mt. Jackson Area Churches Given Requests Of \$1000

Numerous requests to various persons, churches, and organizations were granted by the will of the late Attorney William W. Zimmerman of Youngstown, Ohio, and formerly of Mt. Jackson.

The Westfield Presbyterian church, the Mt. Jackson United Presbyterian church, and the Bethel United Presbyterian church each received \$1,000.

Miss Ella Clark, Miss Jean Clark, Mrs. T. A. Gilkey, Miss Jennie B. Henry and Samuel W. Laughlin are among the old schoolmates of Mr. Zimmerman who each received bequests.

HOUSE RECEIVES REPORT ON O.P.A.

Special Investigating Committee Makes Report Of Findings In Investigation

By ROBERT HUMPHREYS (N. S. Staff Correspondent)

WASHINGTON, Nov. 15.—The house received a formal report today holding that the OPA has set up "mock courts" for enforcement of rationing orders, committed acts of "unlawful search, seizure and arrest" and arrogated vast powers to itself never authorized by law.

The findings were made by a special investigating committee headed by Rep. Howard Smith (D-Va.) and were accompanied by urgent recommendations for remedial action by congress.

Platly accusing the OPA of "creating great confusion" by the multiplicity of its decrees, the report asserted the agency has issued "1100 regulations, amendments and orders" all having the full force and effect of law—far more than six times as many laws passed by congress in the same period.

"The committee finds," the report stated, "that the OPA has assumed unauthorized powers to legislate by regulation and has, by misinterpretation of acts of congress, set up a nation-wide system of judicial tribunals through which this executive agency judges the actions of American citizens relative to its own regulations and orders, and imposes drastic and unconstitutional penalties upon those citizens."

zens, depriving them in certain instances of vital rights and liberties without due process of law.

"A revision and simplification of the rules, regulations and orders of that agency is an immediate necessity. The illegal, absurd, useless and conflicting regulations are creating such great confusion that it is impossible for the average citizen to know how to comply.

"This situation inevitably tends to bring the law into contempt and ridicule and creates widespread indignation and resentment. Such an unfortunate situation will ultimately lead to a complete breakdown of the price control law and necessarily retard the effective prosecution of the war."

Japs Continue To Make Claims

LONDON, Nov. 15.—(INS)—Ten Allied bombers which twice attempted to bomb Gilbert Island were intercepted by Japanese naval units and one of the bombers was shot down, the Japanese official agency Domei claimed today. The Domei report, received by Reuter, said the attempted attacks occurred Saturday.

A dispatch circulated by the Nazi agency DNB, quoting a Jap navy statement, claimed a total of 69 Allied warships and other vessels have been sunk or damaged, and a further 40 landing craft sent to the bottom and a great number more damaged in Jap aerial attacks to date in the Bougainville Island area.

(A Tokyo broadcast beamed to Japanese listeners and heard by U. S. government monitors, claimed the sinking by Jap naval planes off Bougainville island of two Allied cruisers and a destroyer and the damaging of a battleship and a medium-sized aircraft carrier. The Jap radio warned, however, that "it can be known that the enemy retains a formidable strength of fleets in these waters.")

News Briefs From City Hall

Following two years of effort by Purchasing Agent Joseph D. Alexander he received today authorization to purchase a sweeper for the city which when paid for will cost approximately \$7,000. The sweeper purchase was authorized by council approximately two years ago but sweepers were frozen. However, today the government thawed out and the city will get a sweeper.

City hall was quiet over the week end. Apparently the general public behaved well only one person having imbibed of the flowing bowl so much that he needed the care of police. However, some motorists who tried out the new paving in Washington street are finding it does not pay to speed. Several already have paid \$10 for speeding their cars.

During council session held in city hall today Finance Director Albert Hoyland introduced a bill which safeguards the parking meter money. The bill provides how the meter collector shall collect the sealed boxes. They must be taken to his office and there, in the presence of the finance director and city controller, the boxes will be broken open, the money counted and wrapped then turned over to the city treasurer who will give the meter operator and money collector a receipt.

Some person who bought coal this morning got short weight—and the city got the difference. The truck loaded off coal that would have filled a scuttle in East Washington street. Mayor Charles B. Mayne noticed this. The driver did not stop. When he told Traffic Lieutenant J. P. Steiner about the situation the lieutenant went to the street gathered the coal and tossed it into the coal pile in a city hall bin.

AWAIT PROGRAM FROM LABOR BOARD ON UNION REGULATION

WASHINGTON, Nov. 15.—(INS)—Congressional leaders on labor legislation awaited some formal recommendation from the War Labor Board today before undertaking any legislation for more drastic regulations of unions.

They expressed their views as A. F. L. President William Green threatened to withdraw the A. F. L. representative from the board if public members of that body continued to seek drastic curbs on worker groups.

Sen. Tom Connally (D) Tex., co-author of the Smith-Connally anti-strike bill, said that inasmuch as the WLB has made no recommendations so far, he knew of no action contemplated in the Senate.

DEALERS OF ANTI-FREEZE MUST NOT HOARD STOCK

PITTSBURGH, Nov. 15.—(INS)—The War Production Board was in action today to prevent anti-freeze dealers hoarding stocks.

The Pittsburgh district office reported that distributors with excess stocks will be required to pass them on to others whose inventories fall short of demand. The action is explained as a measure to see that car owners obtain sufficient anti-freeze compounds for winter use.

MAY ADJUST HOURS OF SOME PUPILS FOR WORK

PITTSBURGH, Nov. 15.—(INS)—Pittsburgh schools were informed today by Superintendent Henry H. Hill that attendance hours will not be juggled generally to permit pupils to work during Christmas holidays.

However, he said, the hours of individual pupils may be adjusted when they report it necessary to work. At least 40 per cent of older boys and girls are working now, Hill reported.

FIRE DAMAGE \$150,000

HARRINGTON, Del., Nov. 15.—(INS)—Causing damage estimated at from \$125,000 to \$150,000, fire of undetermined origin today destroyed the Reese theatre building and at its height threatened the entire business district of Harrington.

The two-story building also housed a shoe store, a paper shop and the dental offices of Dr. R. J. Emery. The building was owned by Reese Harrington.

Estimate 140 Are Killed Or Injured In Lebanon Clashes

By W. P. SAPHIRE (N. S. Staff Correspondent)

CAIRO, Nov. 15.—Casualties resulting from a series of clashes between Lebanese natives and French troops were officially estimated today at 140, including 10 or 12 persons killed.

The authorities released these figures simultaneously with the report that Richard G. Casey, British minister of state for the middle east, had bluntly outlined his government's view of the situation to Gen. Georges Catroux, representing the French committee of national liberation.

Casey, pulling no punches, emphasized the urgent need for Catroux to proceed to Beirut as early as possible. The British diplomat flew to Beirut for a personal on-the-scene inspection of the situation yesterday, returning to Cairo this morning to meet with Catroux.

BONUSES FOR CHRISTMAS ALLOWED BY LABOR BOARD PHILADELPHIA, Nov. 15.—(INS)—The third regional War Labor Board put its stamp of approval on Christmas bonuses for employees today—providing the workers received similar bonuses last year.

Board permission must be obtained, however, according to Bert W. Levy, RWLE attorney, in all other instances. Levy indicated that bonuses would be granted only in cases where non-payment would result in "gross inequity" to the affected employees.

Manicure scissors used 630,000 pounds of steel in 1941, enough to make 305 75-mm. howitzers.

Postwar Boom Is Forecast By Ayres

CLEVELAND, Nov. 15.—Nothing that "after the first World War and after the Civil War we experienced phenomenally rapid increases in manufacturing output," Brigadier General Leonard P. Ayres declared today. "We shall surely have similar developments this time."

"Our expanded resources will do a large part in our post-war plan for us," the retired officer asserted in the monthly business "Bulletin" of the Cleveland Trust Company, where he is a vice president. "They will increase our national income, furnish jobs for great numbers of ex-service men, and provide great volumes of freight for railroads and trucks."

Ayres said the nation's industrial plant is nearly 70 per cent larger than when the European war broke out four years ago, and that even after allowances for armament capacities unneeded in peacetime, "we have greatly increased during these war years the productive capacity of American industry."

PLAN FOR PARLEY AT LEBANON TODAY

Seek To Adjust Serious Controversy In French-Mandated Republic

By W. P. SAPHIRE
(U. S. Staff Correspondent)
CAIRO, Nov. 15.—A vital conference to attempt settlement of the critical situation in the Lebanon was to be held today between Gen. Georges Catroux, representing the French Committee of National Liberation, and Richard G. Casey, British minister of state for the Middle East.

While latest reports from Beirut, Lebanese capital, continued to tell of further clashes between natives and French troops, Gen. Catroux flew from Algiers to Cairo yesterday. Casey flew to Beirut for a personal, on-the-scene inspection of the situation.

Casey was to return to Cairo today to meet with Catroux, after which the latter will leave for Beirut.

(The London Daily Telegraph said this morning that fashionable Mena House hotel at Giza, near the Pyramids, had been closed to the public in "anticipation of visits and conversations of great importance." This presumably referred to the Casey-Catroux talks.)

Tension in Beirut—in fact, tension through the Moslem world—appeared to be mounting rather than diminishing, and the critical situation developed repercussions far beyond the desolate wastelands of the little French-mandated republic.

In Cairo and Alexandria large numbers of students demonstrated in street parades. French flags were torn down, and stones were thrown at official French buildings.

Nahas Pasha, premier of Egypt, revealed that the Egyptian government had taken the lead of the Arabic countries with "an energetic protest" directed to the United States, Britain and the French government in Algiers and asked all other Arab states to follow with similar representations in behalf of Lebanese independence.

Christmas Trees May Be Available

WASHINGTON, Nov. 15.—There will be Christmas trees for most patrons this year, the War Production Board said today.

More of them will be cut locally than in past years, however, with the result that some may not be as well shaped as the ones usually shipped in large quantities from the Pacific Northwest, Canada, New England and Rocky Mountain and Lake States.

Only obsolete wooden freight cars, unsuitable for handling vital war material, will be used for hauling Christmas trees, under an agreement reached by the Office of Defense Transportation with the Association of American Railroads. ODT said it would not allow extra gasoline for the Christmas tree handling by truck.

President Is Against December 7 Proposal

WASHINGTON, Nov. 15.—(INS)—The White House indicated today that President Roosevelt probably will veto a congressional resolution calling for national observance of Dec. 7, the anniversary of Japan's attack on Pearl Harbor.

The resolution was sponsored by Rep. Tolson (D. Calif.) and Sen. Wiley (R. Wis.), calling for national observance on Dec. 7 in honor of American service personnel.

The White House let it be known today that President Roosevelt feels very strongly against any observance just as he did when a similar proposal was made last year. At that time the White House stated that the president "feels that it should be observed as a day of silence in remembrance of a great infamy."

"I haven't as much to sell...
but more than ever to give!"

• When you're operating a service station these days, the accent is sure on SERVICE...to make cars last for the duration.

Of course, my station has always given bang-up service. But today, I don't have as much to sell.

But I still have plenty of service to give... and people drive in to get it. I work long hours, Gulflexing cars, changing oil, servicing spark plugs, tires, batteries, radiators, and air filters.

And the young fellow who used to help me isn't here any more.

Then I have a lot of paper work to do—like reporting my gasoline stocks, keeping close check of gas coupons, pasting them on gummed sheets.

Sometimes I get discouraged, I'll admit. But along comes a truck loaded with war supplies, and I get to thinking how important it is to keep the Home Front moving. And then I realize

that the thousands of service station operators like me are the men America depends on to help keep the wheels rolling here at home.

So I'm staying here, giving the kind of service I've always been proud of... keeping cars in my neighborhood running.

That's my contribution to victory.

WHISKY

Rationing begins tomorrow. Each individual over 21 may buy a fifth and a pint between now and Dec. 31 upon presentation of his Ration Book 3, which also will permit him to register for future ration purchases. Everyone must buy and register for himself.

TRAVELING BAGS

SURPRISE PAIR

ROCKFORD Ill., Nov. 15.—(INS)—Mrs. Darius Conklin reported today she was mighty surprised on returning from a train trip to find on opening what she supposed was her traveling bag that it contained a shotgun and a supply of shells. But she figured that some duck hunter, who apparently had exchanged bags with her in a Chicago

railroad station, probably was even more surprised when he opened the bag he took home with him. Instead of shotgun and shells it contained pajamas (definitely four-piece), a new dress, a pair of shoes and a wedding license issued at Northumberland, Pa., to her and Pvt. Conklin.

Fourth Loan Drive Now Being Planned

PITTSBURGH, Nov. 15.—Preliminary organization plans for the Fourth War Loan are already under way in the 19-county Port Pitt area, including Allegheny county, although the campaign is not scheduled to start until sometime next year, probably late January, it was announced by local officials yesterday.

Robert H. McClintic, vice-chairman of the State War Finance Committee and in direct charge of this area, recently returned from a conference with Secretary of the Treasury Henry Morgenthau, Jr.,

and other War Finance Committee leaders. He said every effort would be made to retain the voluntary organization in this area which carried the Third War Loan over its quota by almost \$105,000,000.

"Most of the county chairmen from the Third War Loan," Mr. McClintic asserted, "already have indicated their desire to serve in the coming campaign. It was these men and their volunteer workers who made the Third War Loan campaign a success."

TURKEYS WILL BE SCARCE THIS YEAR

NEW YORK, Nov. 15.—(INS)—Heavy government purchases, feed shortages, lack of farm help and severe midwest storms which wiped out whole flocks were given as the reason today why most American tables will be "turkeyless" this Thanksgiving Day.

Only a third to a half as much turkey will be available this month as in normal years, the Market News Service of the United States Department of Agriculture disclosed.

CADETS TO SHARE COLLEGE MAGAZINE

NEW WILMINGTON, Nov. 15.—Westminster's AST will be well represented in Scrawl, campus literary magazine, according to Eloise Lowry, editor.

Over one-third of the contents will be signed by Army men, while both service groups will be represented in the Scrawl public opinion poll. HARD-BOILED ON GERMAN RELIEF POSTWAR NEEDS

United Nations Not Worrying
Too Much About Germany
After War

By PHILIP G. REED
(U. S. Staff Correspondent)

ATLANTIC CITY, N. J., Nov. 15.—The United Nations are going to take a hard-boiled attitude toward Germany in regard to relief after the war, it developed today at the international relief and rehabilitation conference.

A high UNRRA spokesman declared flatly:

"We are not worrying too much now about Germany after the war. We may be taking things out of their heads of sending them in."

What may result in such a UNRRA declaration of policy on relief for enemy areas was said to have the complete backing of the powerful American delegation which is being guided by a completely realistic approach toward the postwar relief problem.

An authoritative spokesman disclosed last night that the council program is being built around what may be done within financial limitations, rather than what actually should be done to provide full-scale relief to all areas.

As he expressed it:

"First we are drawing our financial pattern. Then we are going to cut our cloth to meet it."

It became known that congress will be asked to appropriate no more than \$500,000,000 as America's share in launching UNRRA.

The total cost to the United States over the expected two-year life span of UNRRA is not expected to exceed one and a half billion dollars in cash and materials.

This contrasts to the two and a half billions it cost the United States in European relief after the first world war.

'TARZAN' AND MATE NOW RECONCILED

HOLLYWOOD, Nov. 15.—(INS)—The off-screen troubles of Johnny "Tarzan" Weissmuller ended happily today just like the dilemmas in his jungle movies.

Tarzan and his real-life mate Beryl Scott, are reconciled. She said she had decided not to file a divorce suit after all. Weissmuller never did really move out of the house, she admitted. They just had a quarrel and now everything is all right.

YOUNG MOTHERS SHOULD KNOW

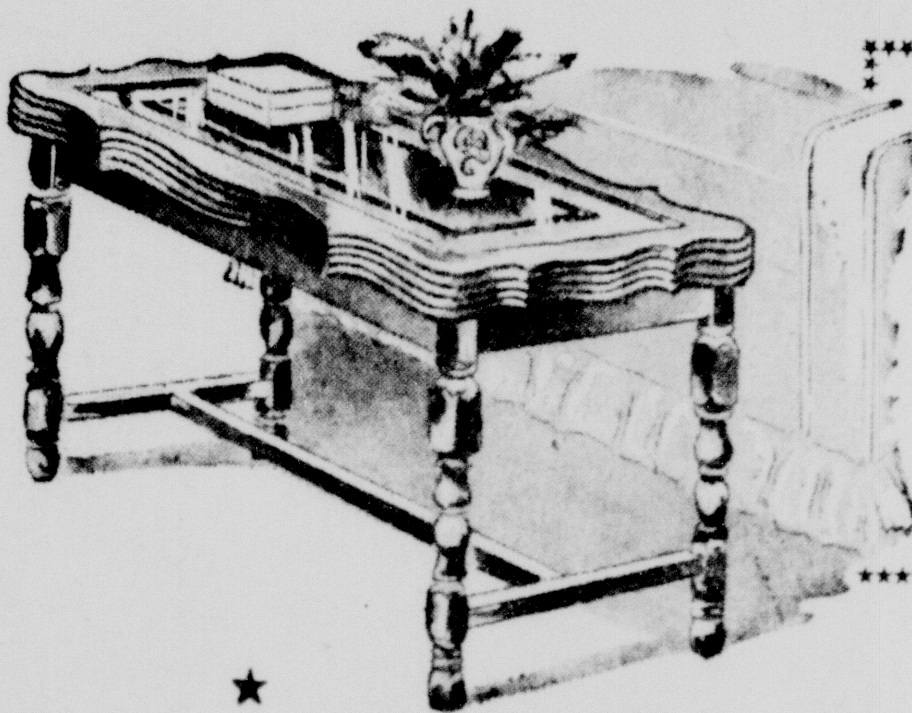

It is important to know that children are more subject to colds if their resistance is low due to insufficient vitamin A. Father John's Medicine builds resistance to such colds by supplying plenty of vitamin A. It also gives prompt relief from coughs and throat irritation due to colds by soothing the throat.

GOOD FOR ALL THE FAMILY

Give Santa a Break, Folks-- Select Xmas Gifts Early This Year

Santa's in a quandary! Most of his best helpers have been drafted! His gas ration has been considerably cut. He knows he'll have to disappoint loads of nice folks in making deliveries this year unless they're fore-sighted enough to tell him what they want many weeks in advance. Of course he'll do his level best—the rotund, jolly old gent has a heart of gold. But even Santa can't make last minute deliveries with a War on . . . Yes, there are 33 shopping days until Christmas . . . BUT vastly fewer delivery days in your locality! So order early. You'll find larger selections. Better service! Greater satisfaction! And you'll be giving St. Nick a big hand. He certainly needs one THIS CHRISTMAS.

Flag Dedication At Christian Church

On Sunday evening, at the Madison Avenue Christian church, there were special services for the dedication of the service flag.

There was an organ prelude by the organist, Mrs. C. H. Clark, singing of "Star Spangled Banner" by the audience. Invocation by the pastor, Rev. Clyde Roland; inspiring address by Chaplain Henry G. Spraggins, of Camp Reynolds; "America The Beautiful," by choir; presentation of Service Flag to the church by Mrs. C. J. Bernhart, president on behalf of the Berean Bible class; Edwin Bevan, chairman of official board, accepted the flag on behalf of the church; splendid reading by Robert Park, "Address To The Flag"; duet, "America," Mrs. C. H. Clark and Mrs. David Evans, accompanied by Miss Thelma Bumbaugh and assisted by the choir; roll call of names of boys and girls of the church and Bible school in the armed forces; by the pastor; "Taps" was given by Benjamin Roman.

Benediction by the pastor; postlude by Mrs. Clark.

There are 40 stars on the Service Flag, two of them gold.

Lovely flowers decorated the platform in honor of the "two golden stars" Wilton "Buddy" Taylor, U. S. Navy, who died at Pearl Harbor, and Tech. Sergeant Jack Cheek, Air Force, lost in the Southwest Pacific.

The committee of arrangements was Mrs. Walter G. Wilkins, Mrs. E. M. Jones and Miss Thelma Bumbaugh.

SON AND SON-IN-LAW GIVEN FAREWELL PARTY

On Saturday evening, a farewell party was given by Mr. and Mrs. James V. Zarilla, of North Ashland avenue, honoring their son, Angelo Zarilla, and son-in-law, Alex Bozul, both leaving this week to become air cadets. There were over a hundred guests present.

Contest games were the diversion of the evening, and prizes were awarded.

Lunch was served throughout the evening.

WILDCAT STRIKE

HARRISBURG, Nov. 15.—(INS)—A wildcat strike was reported by the Central Iron and Steel Company today when approximately 100 plate mill employees continued a work stoppage that started Saturday afternoon.

Officials of the United Steel Workers of America said the stoppage was unauthorized by the union and urged the men to resume production. Conciliators representing the war production board and the department of labor were scheduled to confer with company and union officials in an attempt to mediate the strike.

DIES OF FOOD POISONING

PITTSBURGH, Nov. 15.—(INS)—Paul Shaw, 23, of Gladden, Pa., lost a long battle for life today when he died of food poisoning.

Shaw, his wife and his mother-in-law, Mrs. A. Dixon, also of Gladden, were stricken Nov. 1 after eating veal steak. After treatment, the women recovered. Early yesterday Shaw became violently ill, and was taken to Mercy Hospital, where he died.

Y.—(INS)—Electric motor clinics, to which farmers may bring motors for cleaning and adjustments, will be continued in New York state during the fall and winter by extension agricultural engineers. This year they have already shown more than 4,000 farmers how to adjust and repair for longer life this essential electric equipment.

NEW CHARGES MAY CONFRONT COUNT

Acquitted Count Now Appears Headed For New Troubles In Nassau

By JAMES L. KILGALLAN
(U. S. Staff Correspondent)

NASSAU, Bahamas, Nov. 15.—Count Alfred De Marigny appeared headed for legal trouble again today amid indications that he may be a defendant in the government's prosecution of alleged "hog gasoline" manipulators.

Regardless of the outcome of the deportation recommendation made by the jury which heard Thursday cleared him of charges that he murdered his wealthy father-in-law, De Marigny stood under the threat of re-arrest and possible imprisonment.

International News Service learned that Bahamas authorities plan to bring to trial this week five persons involved with the removal of four drums of gasoline from the count's premises during the police investigation of the murder for which he was tried and acquitted.

Four of those concerned already have been charged with violating the wartime gasoline rationing regulations and the Bahamas penal code. It is expected that De Marigny will be the fifth person, and that he will be formally charged within the next day or two.

These expectations came amid reports in Nassau that "an important development" is imminent dealing with the jury's recommendation that the dapper young French Nobleman be banished from the islands.

The four awaiting trial are the Marquis Georges De Visdelou, intimate friend of De Marigny; Nassau Banker John Anderson; Brice Pinder, agent for a soft drink company, and a colored truck driver named Knowles.

Conviction of violating the gasoline rationing regulations carries a penalty of 100 pounds fine, or six months in jail, or both. Violation of the penal code involves a maximum sentence from one day to ten years.

NEED MORE WORKERS IN ESSENTIAL PLANTS

BRADDOCK, Pa., Nov. 15.—(INS)—An intensive campaign to enlist 30,000 for work in war-production factories began today in the Braddock-Homestead-Munhall district with house-to-house canvassing under direction of the United States employment service.

P. T. Fagan, was manpower commissioner, estimated that 18,000 must be drained out of unessential plants.

"Otherwise," he said, "contract commitments cannot be met, and munitions will not continue to flow in sufficient quantities to meet the demands of our national war effort."

Men between 16 and 60 and women between 18 and 45 will be asked to take war-production jobs.

Poland Aggrieved Over Soviet Claims For Polish Territory

LONDON, Nov. 15.—(INS)—A Polish spokesman said today that his government was "grieved" that the statement of Constantine Oumansky, Soviet Ambassador to Mexico, indicating that Russia was determined to retain Polish territory, should be made soon after the Moscow conference.

The Polish government is "well aware" that "the Russians are claiming the territory to the old Curzon line," he said, "but momentarily is not making any issue of such knowledge or what it feels may be certain implications behind Oumansky's statement."

Instead, he declared, the Poles prefer to place faith in a United Nations liberal interpretation of the Atlantic charter, particularly at a time when official comment from Poland might embarrass the Allied governments.

The spokesman admitted, at the same time, that Oumansky may have been expressing his private views or even trial ballooning when he said Russia was determined to retain the Polish territory she received after the German invasion of Poland.

British officials refused to be drawn into the discussion on the ground the Oumansky statement did not originate in Moscow.

YUGOSLAVS REPORT DALMATIA ATTACK

LONDON, Nov. 15.—(INS)—The launching of a big offensive by the Germans in Dalmatia was reported today in the Free Yugoslav communiqué.

The Nazi drive was an effort to occupy the beaches and off-shore islands in the Adriatic, according to the announcement.

LARGE CROWD AT MILITARY BALL

Many Servicemen From Nearby Camps And Stations Here As Guests

With the ball room and dining room filled with service men, ex-service men and their companions Saturday night the Armistice Ball held by the committee in charge of the Armistice Day program here proved to be one of the most entertaining social events of its kind ever presented here.

Service men from Camp Reynolds, Westminster College, Slippery Rock, Thiel and Grove City, and local service men home on leave were present, and alongside of the men in uniform were veterans of the last war. For the ball, the United Service Organization furnished hostesses and not one uniformed man was without a lovely companion.

Food in abundance was on hand and sandwiches, cookies, cakes and other dainties and if any guest present didn't have a good time it was his own fault. The dance committee was headed by Peter J. McGinty and the committee did an excellent job.

THIRSTY WONDERING ABOUT REGISTERING

PITTSBURGH, Nov. 15.—(INS)—Thirsty Allegheny county citizens were pondering today if it will be worth while to line up today for their fifth-and-a-pint of whisky, as rationing begins.

But the state liquor stores weren't debating. They were preparing for the biggest rush since prohibition ended.

Four hundred thousand were expected to register with their No. 3 war ration books in the county.

A consensus of curbstone comment agrees that a fifth and a pint to last until Dec. 31, is the best trick of the year—if it can be done.

CONDUCTOR KILLED
PITTSBURGH, Nov. 15.—(INS)—A Pennsylvania railroad conductor was dead today because he failed to notice a low bridge as he stood atop a speeding train. Earl C. Beatty, 53, of Crestline, O., was swept to his death as the train passed under Larimer Avenue bridge.

RELIEF DROPS
HARRISBURG, Nov. 15.—(INS)—The department of public assistance reported today that relief payments during October totaled \$4,883,700 or \$59,700 less than in September.

Secretary Samuel Y. Ramage explained the decreased costs were the result of another decline in the case load which now totaled 153,953.

ENON VALLEY BOY PROVES AIR HERO

Sticks To Guns To Down Nazi Fighter Although Wounded In Both Legs

ATLANTIC CITY, N. J., Nov. 15.—Shot in both legs, Staff Sergeant James A. Brehm clung to his gun triggers, sent one Nazi fighter to its doom and drove off a swarm of other attackers. Now fully recovered from his wounds, Sgt. Brehm has been returned from overseas to the Army Air Forces Red Cross Station No. 1. He is the son of J. R. Brehm, Enon Valley, Pa.

While at this station, the 21-year-old flying fortress tail gunner will be examined and interviewed to determine how his training and combat experience can be utilized to the greatest advantage of the AAF.

Sgt. Brehm was wounded in a Fortress raid over San Giovanni and subsequently spent a month in a North African hospital. For his courage in sticking to his guns although badly wounded, he was awarded the Silver Star for gallantry in action.

His guns also claimed two other fighters—a Focke-Wulf over Sicily and a Macchi-202 over Sardinia. Describing the latter fight, he says: "I gave that Macchi everything in the book. At first nothing happened. Then suddenly, it exploded. I was surprised—and glad."

Brehm, former Enon Valley high school student, enlisted in June, 1942, and went overseas last January. He also wears the Purple Heart Medal for wounds and the Air Medal for six Oak Leaf Clusters.

Westminster Grads Meet At Mercer

MERCER, Nov. 15.—William Crowell, principal of Sharon Junior High school, was elected president and Miss Mary Freebie, Farrell, secretary-treasurer of the Mercer County Westminster Alumni association at the annual banquet Friday at the Hotel Humes, Mercer.

Sixty were present and John B. Lewis, Sharon, retiring president presided. Invocation was by Rev. C. L. Myers, pastor of United Presbyterian church, Sharon, and group singing led by Mr. Lewis was accompanied by Paul Gamble, pianist.

Carroll D. Kearns, superintendent of Fairfield schools, served capably as toastmaster and presented Russell Weller, Cleveland, president of the national association who gave an inspiring address. Dr. R. P. Galbreath, president of the college, gave a vivid account of the changed conditions on the campus and the adjustments made by the students to the military program. Miss Ruth Johnston, freshman violinist, was guest performer and was accompanied at the piano by Miss Louise Kost, a junior.

RATIONING OF LIQUOR STARTS

Experimental Rationing Program Is Launched In State Today By Board

By JOHN PAGET

(N. S. Staff Correspondent)
HARRISBURG, Nov. 15.—Experimental rationing of Pennsylvania's slim whiskey stocks was initiated today by the State Liquor Control Board in a belated attempt to stretch wartime supplies.

The board emphasized it would be unnecessary to deplete state stores for whiskey—only liquor formally rationed at present—because adequate stocks would be available.

Unlimited sales of most other items stocked by the 579 state-operated outlets—including runs and wines—were continued during the trial period ending December 31. Consumers will be allowed one-fifth bottle and a pint of whiskey during the next seven weeks—roughly 41 ounces. War ration book number three must be presented and an identification slip filled out before clerks will sell the "quart and pint" ration. The board said. Both bottles must be bought at the same time.

Thirsty Pennsylvanians, however, need not think the purchasing ban will be lifted January 1 because the board is merely marking time until a permanent rationing system, perhaps an entirely different program, can be launched to control sales among 3,000,000 consumers.

Chairman Fred T. Gelder emphasized that the identification slip would be demanded from each purchaser during the next seven weeks "so we can send a permanent registration blank later." The current system was adopted by the board and approved by Gov. Edward Martin after months of surveying systems used in other states.

Officials were hopeful it would prove to be unnecessary to change the rationing plan but other programs were in reserve if needed.

Distilling companies have promised their cooperation and sufficient whiskey supplies to make the experiment a success but the board has hinted at the possibility of a breakdown by pointing out there is an estimated 250 per cent demand for whiskey with a 60 per cent supply.

The board said consumers "will not have a very wide choice of brands, rationing or no rationing." Brands and quantities now on hand, or on order, will be allocated to stores on an equitable basis. Seventy per cent of the whiskey will consist of a variety of brands while the remaining 30 per cent will be one brand—probably Kinsey—which is in "good supply," the board stated.

Rationing will not add one single pint of whiskey to the stocks now on hand or coming into the state store system," the board stated. "The board can sell only the whiskey it now has or can get. No one can be assured that he will get the brand he wants, but he can be assured his allotment of whiskey during the rationing period."

Report Remedy For Seasickness

Announcement Is Made At Ottawa, Canada; Will Aid Armed Forces

OTTAWA, Nov. 15.—(INS)—Science has at last discovered a remedy for seasickness.

The discovery is the result of years of research by the Royal Canadian Navy and involves scientists of international renown, including Surg. Capt. C. H. Best who, with the late Sir Frederick Banting, was co-discoverer of insulin.

The new remedy is simply a pink capsule, similar in appearance to an ordinary cold capsule. It prevents seasickness in three out of four persons normally susceptible, cures victims already seasick, and produces no harmful results.

The capsule is now being manufactured in quantity and will shortly be issued to ships for general use at sea. However, civilians will probably have to wait for it until after the war.

Along with the announcement of the remedy came the revelation that as the result of thousands of experiments and other research, the cause of the malady now also is known.

It's a maladjustment of the equilibrium apparatus in the inner ear, caused by its inability to adjust itself to continued rapid changes in position. The rougher the weather and the more violent these changes the more likely one is to get seasick.

Painstaking research by the Canadian navy scientists has definitely disproven several long-cherished superstitions about this ancient and uncomfortable malady.

Seagoing men, for instance, are not immune—despite popular belief. Diets seem to make no difference. Neurotic, unstable individuals are no more susceptible than easy-going ones.

Tells Why Turkey Supply Is Short

NEW YORK, Nov. 15.—(INS)—Heavy government purchases, feed shortages, lack of farm help and severe midwest storms which wiped out whole flocks were given as the reason today why most American tables will be "turkeyless" this Thanksgiving day.

Only a third to a half as much turkey will be available this month as in normal years, the market news service of the U. S. Department of Agriculture disclosed.

Especially hard hit will be the metropolitan area of New York due to the fact that farmers in the producing areas of both east and midwest are finding markets nearer home due to the shortage.

Urges Pennies Be Put In Circulation

PHILADELPHIA, Nov. 15.—(INS)—The country-wide shortage of pennies today brought an appeal to the nation from Edwin H. Dressel, superintendent of the Philadelphia mint, to take all pennies "out of hiding."

The mint started coining zinc-plated pennies last year to replace the copper one-cent piece, but the supply of zinc is far below demand, Dressel said. The Philadelphia mint can't supply enough one-cent pieces for the Federal Reserve banks, he pointed out, and the banks, in turn, can't satisfy business firm demands.

Baseball Tosses Two Billion Into War Effort Pot

Sen. Lucas Reveals Figures To Senate; Game Draws Praise

National Accounts For Billion In Bonds; Pay 4 1/2 Million In Taxes

By EARLE MARCKRES
(U. S. Staff Correspondent)

WASHINGTON, Nov. 15.—Sen. Scott Lucas (D) Ill., in a speech prepared for delivery in the senate, revealed today that baseball has contributed nearly two billion dollars in bonds and donations to the war effort.

The National league alone, Lucas said, accounted for bond sales of over a billion dollars since Pearl Harbor and although figures for the American league are unavailable, it can be assumed that their sales were similar to the National league parks.

Base league games have put nearly 4 1/2 million dollars cash into Uncle Sam's tax and war fund coffers since we entered the war, Lucas declared.

Praises Baseball
The senator, himself a "pro" baseball player for three years, praised baseball as a morale builder for civilians and servicemen as well. He urged that the game be continued throughout the emergency.

Financial assistance to the war effort is not the only important reason for continuation of baseball," Lucas told the senate. "Servicemen in every part of the globe are interested in this great national pastime."

Quoting figures furnished him by Ford Frick, president of the National league, Lucas asserted that 673,667 servicemen, blood donors, scrap and fats donors and bond purchasers were admitted free of charge to that league's games since Dec. 7, 1941.

Navy Team Will Play Seven Games At Westminster

Navy Men At Westminster Come From Many College Teams

NEW WILMINGTON, Nov. 15.—As a preliminary to the Westminster varsity basketball games this season, the Navy basketball team, captained by Bob Artman, former Pitt star, has a seven-game schedule with the AST unit.

Artman will be supported by a variety of collegiate stars from various colleges. Among them are Bill Haddad, a member of the Geneva college varsity last year; Bob Boland, former Albright college forward, and Mike Copolansky, Carnegie Tech. A newcomer to the squad, Vince Gutuso, played seven years of independent ball at Ellwood City.

Others represented on the Navy team are Cadets George Connor, Wellgreen; Ted Meyers, Pittsburgh; Chester Johnston and Jack Kuhn.

The AST lineup includes Bill Dornia as acting captain, East Kentucky State Teachers college; Roy Adkins, Purdue; Anthony Vecchi, James Wheeler, University of Illinois; Harold Gordon, Northwestern university; Charles Tyler, Ball State university, and Ralph Dean Earham college.

CHURCH CAGE PILOTS MEET ON WEDNESDAY

Church Basketball League managers will hold an important meeting in the Y. M. C. A. on Wednesday night at 7:30 o'clock.

Drawings for opening games will be held.

Franklin-Marshall Remains Unbeaten

Diplomats Only Gridders In East With Undeclared And Untied Record

(International News Service)

The Franklin and Marshall Diplomats were the only college team in the East sporting an unbeaten record today as they rested from triumphing the Atlantic City Naval Air Cadets 20 to 7.

The Diplomats, idle next Saturday, have run up 146 points to their opponent's 47 during their eight game victory sweep that has not been marred by a defeat or a deadlock.

Penn State, fresh from a 13-0 triumph over the Temple University Owls, retired to the lair of Nittany's Lions and planned a foray against the Pittsburgh Panthers this weekend. Pitt, idle since Ohio State administered a 46-6 spanking, has won only three of seven games.

The Owls, owned entirely by 17 year olds, will meet Villanova for the 19th time this season. The Wildcats were beaten 12 to 7 by Holy Cross over the weekend. Temple has not won since October 2.

Penn Rests

Pennsylvania, running into opposition in recent games after defeating 50-50 teams earlier in the season, was set down 9 to 6 by North Carolina for the second loss in a row and retired from the gridiron until Thanksgiving when Cornell visits Franklin Field with an unseasoned aggregation.

Bucknell, idle until Thanksgiving when it meets undefeated F. & M., was taking things easy after fashioning a 19 to 13 victory out of a driftnet game with the Case Rough Riders.

Lafayette, unscheduled over the weekend, takes on Rutgers for the second time this year. Two weeks ago, Rutgers won 13 to 0.

Muhlenberg, nosed out by Swarthmore 13 to 8 Saturday, prepared to meet the Sampson Naval Cadets who were defeated 16 to 7 by Army.

The Miles have won only one out of 10 games this season. Swarthmore meets the Atlantic City Hellcats this week.

Montreal Winner, Tops Hockey Loop

Scores Over Detroit, 2-0; Chicago Hawks Blast New York Rangers, 10 To 5

(International News Service)

The Montreal Canadiens were solidly placed today in top position in the National Hockey league standing after scoring two firsts last night by being the first team to beat Detroit on the Red Wings home grounds and scoring the season's first shutout, 2-0.

Elmer Lach scored for the victors in the first period and Gervais Hefnerman doubled the winning score in the third before an attendance of 12,515. It was the Canadiens' second victory in two nights over the defending league champions.

At the Chicago stadium the Black Hawks gave the New York Rangers a 10-5 shellacking before 13,773 fans.

New Mexico Signed For Sun Bowl Tilt

DENVER, Nov. 15.—(INS)—The Rocky Mountain region hoped today for representation in two New Year's Day bowl games.

The University of New Mexico Lobos have been signed as host team for the Sun Bowl at El Paso, Tex., against an opponent yet to be named.

The Colorado college Tigers are seeking an invitation to play Texas or Texas A. & M. in the Cotton Bowl at Dallas, Tex.

The Lobos accepted the Sun Bowl bid immediately following their 33-10 victory last Saturday over Denver university.

IRISH MEET AGAIN

STATE COLLEGE, Pa.—Bill Smyth, rangy football end, renewed an old friendship when he went to Parris Island with the first contingent of marines from Penn State.

Angelo Bertelli, Notre Dame star assigned to the same station, was Smyth's roommate when the two were sophomores at South Bend.

Sid Luckman Sets New Passing Mark

Pitches 7 Touchdown Aerials In 56-7 Rout; Steagles Lose 13-7

(International News Service)

A new pedestal was erected today in the National Professional Football league's hall of fame for Sid Luckman who pitched seven touchdown passes and literally tore up the records to give the Chicago Bears a 56 to 7 victory over the New York Giants at New York.

The former Columbia university star from Brooklyn topped by one of the mark of six touchdown passes set by Sammy Baugh of the championship Washington Redskins against the Brooklyn Dodgers only two weeks ago.

In completing 21 of 32 passes for 453 yards yesterday, Luckman piled up a new individual high yardage of a single game far exceeding the record of 333 yards set by Cecil Isbell of the Green Bay Packers last year against the Chicago Cardinals. He made possible a team's total passing distance of 508 yards to shatter the 423 mark of the Packers, set a new team total yardage a game of 701 to break the Bears' own record of 613 and made possible Bob Snyder's eight extra points after touchdowns to top Redskin Reilly Smith's record of seven established in 1937.

Redskins Cop, 42-20

In other league games yesterday the Redskins beat the Detroit Lions 42 to 20 at Washington; the Packers defeated the Cardinals, 35 to 14 at Milwaukee; and the Dodgers topped the Phil-Pitt Steagles, 13-7, at Brooklyn.

The Dodgers, exhibiting their best running attack of the season, upset the Steagles at Brooklyn. The victory cheered the Dodgers' owner, C. P. Dan Topping of the marines, who saw his first home football game in two seasons. P. M. Manders and Melvin Condit registered touchdowns for the Dodgers after Bob Thurbon rallied in the first period with Gordon Paschka converting. Bruiser Kinnard converted once for the Dodgers. Only 7,614 spectators saw the game.

Sports Ramblings

Monday Wash:—

Cancellation of Saturday's game denied local fans an opportunity of watching New Castle in action under daytime skies. Come to think of it, the 'Cans haven't played an afternoon skirmish here in two seasons.

Paul Cuba, Jr., whose daddy is a Ne-Ca-Hi assistant coach and formerly a terrific lineman for New Castle, Pitt and the profield, is starting to retrace his dad's footsteps. Young Cuba lugs the piskin for St. Joseph's of the Catholic loop.

Cpl. Pete Zingaro, among the more talented flippers here, is home on a 12-day furlough. The south ender is stationed at Nashville.

The three Orites boys, popular sports figures with the St. George Greek Orthodox, are doing their share to win this war. Corporal Johnny, of the Marines, has been in the Solomons for sometime; Second Class Petty Officer "Coach" has returned to Florida after being out on a mine sweeper; and Pvt. Manuel, who joined the line recently, is stationed at Camp Rucker, Alabama.

"Bill" Haddad, former varsity center at Geneva college, and Bob Boland, ex-forward at Albright college, are among the naval aviation cadets drilling with Westminster college's sea squad.

Greensburg (Pa.) twins, Joe and Felix DeMoise, ex-Westminster track, tennis and football stars, are carrying on their good work with the United States Marines. Joe is on Munda and Felix Guadalcanal.

Random stuff:—Remember when the football season ended annually on Thanksgiving day? Bronco Nagurski, back in football with the Chicago Bears, was an All-American at Minnesota 17 years ago.

While they oppose night baseball at Yankee stadium, the New York front office will try to get a few old tils for their Newark farm next season. Without it, the Newark lost money this year.

Because he lives in the West Point area, Congressman Ham Fish is the only one of the nation's solons who may see the Army-Navy game.

Big Jim Thorpe, famous Indian athlete of 30 years back, is working in a defense plant at Oxford, California. Thorpe tried to get a coaching post at Oklahoma U. The Cubs report that they'll open spring training camp at French Lick, Ind., on March 20. The way they're playing, the date's not too early before the start of the campaign.

Bagby Working As Dispatcher

MARIETTA, Ga., Nov. 15.—(INS)—James H. Bagby, Jr., pitching star for the Cleveland Indians, today began working as a dispatcher in the Bell Bomber plant at Marietta.

The Atlanta-reared mound ace worked in 39 games, hurling 280 innings for the Indians last season. He was credited with 17 victories and 14 losses.

"I had been resting up during the fall period," Bagby explained, "but this year I decided to do my part, so I applied at Bell. I trust I will make a good man."

Bagby is married and has two children.

Penn State-Pitt Clash Saturday

Annual Tilt At Pittsburgh; Panthers Sport 24-16 Series Edge

STATE COLLEGE, Pa., Nov. 15.—One of Penn State's most colorful football rivalries will be renewed Saturday when the Nittany Lions re-

turn to Pittsburgh to meet Clark Shaughnessy's freshman-dominated Panthers in the season's finale for both teams.

These two eleven first met in 1893 and for the first six years of the rivalry, the Lions were unbeatable. Thereafter, however, the series was evenly divided until Pitt ran up a string of 14 straight wins in the period from 1922 to 1939.

The Lion victory in 1939 was State's first in 20 years. Pitt came back the following season to hand the Lions their only defeat of the 1940 season. For the past two years, however, the Nittany eleven has been the victor, with a 31-7 triumph in 1941 and a 14-6 conquest last year.

The Panthers maintain the edge in the series, with 24 victories to 16 for the Lions. In 1920 and 1921, the two teams battled to the only ties of the series.

STAY VERY BRIEF

Charley Stapel, Penn State's hard luck freshman, played only 20 minutes in his first start against West Virginia when an old knee injury was aggravated and he was lost to the team for the entire season.

TERROR ON DEFENSE

Statistics estimate that Johnny Jaffurs, veteran guard, made about one-fourth of the tackles in Penn State's football games this fall.

Lupack's passing was not what it was two weeks ago, when the Irish rolled over Army. Otto Graham, himself the greatest passer in the West, intercepted Johnny's very first pass, one of three such mishaps. There were no lone Notre Dame runs, no spectacular lateral off their terrible T. But the Irish bottled up Graham and forced Northwestern to run; then it bottled up the runners. Lupack's passing clicked long enough to put Notre Dame ahead, and the Irish line did the rest. It was routine football, played by men who have come to regard victory as routine.

Trojans Lose Again

While Notre Dame was pounding out its eighth straight triumph, Southern California was taking its second unexpected beating from a novice team, March Field, which passed the injury-ridden Trojans to death on the short end of a 35 to 0 score.

The major upset of the week was courageous North Carolina's victory over powerful Penn. 9 to 6.

A thirty-four yard run by Rosa Rodgers gave the Tarheels the advantage, and they earlier had put up two points by batting down a pass into the Penn end zone. Penn's Bob Odell, who is touted by Penn as an All-American and the greatest football player since Jim Thorpe, was knocked flat on his back by Rodgers in the Tarheels' sweep go-ahead.

SO THIS IS WAR

STATE COLLEGE, Pa.—In normal times, the turnover on a football squad of 40 men would be negligible. This season, Coach Bob Higgins of Penn State saw 40 varsity prospects come and go via navy-marine transfers, ineligibility and injury.

Military Service Get More Stars As War Moves On

Withdrawal Of Dependency Clause Brings Additional Athletes Into World War

By LAWTON CARVER

(International News Service Staff Editor)

NEW YORK, Nov. 15.—Mr. Whiskers, otherwise known as your Uncle Samuel, is putting the finger on athletes with increasing rapidity.

With dependency no longer a reason for deferment from military service, the wheels of war are grinding through the ranks of the sports headlines, who in many cases previously had been deferred.

In the past several days Second Baseman Mickey Vitek, of the New York Giants, and Pitcher Hiram Bithorn, of the Chicago Cubs, have been inducted.

Tommy Bridges, of the Detroit Tigers, has been called up for his physical, and Pitcher Rip Sewell, of the Pittsburgh Pirates, has been released.

Boxing Hard Hit

Others have preceded them to their local boards since the baseball season ended, and in boxing, Fritz Zivic, has visited his board at Pittsburgh. That brings up the reminder that baseball might get along without baseball players, but how can boxing survive without Zivic. He has been in business since 1931, or longer than any fighter currently active. Moreover, he finds his services in increasing demand due to the shortage of pugilistic man-power at the moment.

Baseball will not be able to get a true line on its prospects for next season until some time after the first of next year, although tentative preparations for starting in 1944 will be made during the mid-winter major league meetings to be held during December.

In that connection, President Will Harridge of the American League has issued a communique from his Chicago headquarters saying that there had been some agitation in that circuit for cutting the schedule from 154 to 140 games, but that a majority of the club owners are against the change.

He added that the chance of there being any change in the American League schedule "is too remote to consider."

That is a fairly stout indication that baseball expects to be in operation again next year, as seems likely. If the war in Europe ends by the spring or early summer—as the war experts seem to believe it will—baseball easily could go bouncing right along. That, however, of course all be contingent upon it having enough men to start at all.

NOTRE DAME COPS MINUS AIR ATTACK

Aerials Ineffective, Irish Sail Onward With Powerful Down To Earth Sport

By JOHN CASHMAN

(International News Service Staff Editor)

NEW YORK, Nov. 15.—The power of unbeaten and untied Notre Dame lies not in spectacular performers of particularly brilliant play, but in the smooth, effortless consistency displayed by the Irish throughout every minute of the season. The Wildcats of Northwestern, primed to stop what has been called the greatest Notre Dame football squad ever seen, were stopped cold Saturday, 25 to 6, when the Irish looked like Dan Ballard handling for more stolid, less colorful tactics.

The question had oft arisen: "What would the Irish do if the passing of Johnny Lupack or Angelo Bertelli failed to click?" No less than 49,124, the largest crowd crammed into Duane stadium, saw Notre Dame given Northwestern the answer.

Lupack's passing was not what it was two weeks ago, when the Irish rolled over Army. Otto Graham, himself the greatest passer in the West, intercepted Johnny's very first pass, one of three such mishaps. There were no lone Notre Dame runs, no spectacular lateral off their terrible T. But the Irish bottled up Graham and forced Northwestern to run; then it bottled up the runners. Lupack's passing clicked long enough to put Notre Dame ahead, and the Irish line did the rest. Equipment Will Undergo Great Overhauling With Emphasis On Accuracy, Star Says

By LAWTON CARVER

INS Sports Editor

NEW YORK, Nov. 15.—Looking ahead to the time when the anemic sports news of these days again will be blooming in full vigor, Gene Sarazen predicted some revolutionary things for golf. The war will bring about changes that can be scarcely envisioned now, the Connecticut cow farmer said, and especially golf equipment will undergo a great overhauling when the manufacturers change their plants back from war essentials to balls and clubs, bags and other such paraphernalia.

"Golf clubs in use today will be obsolete after the war," said Sarazen who has always been a great looker ahead, going back as far as 1932 when he introduced to an amazed British open the then unnamed British open, the then unnamed British open that enables a man to get out of a trap without running the risk of burying himself in the debris.

"The golf clubs you use in the future will have heads on them that will be accurately measured for perfect loft and construction. Instead of varying as they do now by a margin considerably wider than the average player realizes," he said, "they will be measured with precise instruments, then will go through field inspection and marketed only when they are exactly right."

Too Many Gadgets

"Golfers have been getting too many gadgets from the manufacturers, meaningless gadgets that promise quick turnovers in sales and that's about all."

There also will be some revolutionary things done with the grip on the clubs. It may be that the teaching pro will get his pupil lined up with the right position of his hands and then make a cast that will mould this pupil's hand-hold into the grip so that that he can't possibly grip the club incorrectly thereafter.

"And wooden club heads will no longer be made of persimmon and other woods, but possibly of glass."

"When all this is over the better class of players will appreciate the changes that will go into their equipment," Sarazen said. "There hasn't been a perfect set of golf clubs made so far, but they will be when they are they will be the result of fine precision work like we put into guns and anti-aircraft equipment."

Sarazen currently is connected with a war plant and has come up with the information as figured out at his beliefs. By an army officer, that by using the Norden bomb sight, a golfer could sink all his shots of around 240 yards.

Sarazen said they might get things worked out to the point where he will be able to make a comeback after the war.

Trainees To Dominate State's Court Roster

Lions' Opener Month Away; Madison Square Garden Return January 5

STATE COLLEGE, Pa., Nov. 15.—Penn State's basketball team, like its football team, will depend largely on its trainees for manpower this season.

With the season's opening more than a month away, Coach John Lawther already has collided head-on with the many problems inherent in wartime sports.

The lanky mentor is still hopeful of fielding a team, however, that will give a good account of itself against eastern intercollegiate competition.

A return trip to Madison Square Garden will be included on this year's schedule. The Lions will play New York university on January 5. The Violets handed the Nittany eagles one of their two defeats in last year's regular campaign.

Team members include: Shenagato Pottery, Universal Pottery, Aluminum Company, Radiator, Johnson Bronze and Kinney roofers. Practice schedule for these teams:

Whiskey Stocks Feature Trading During Morning In New York

NEW YORK, Nov. 15.—(INS)—Whiskey stocks featured an otherwise drab and narrow market today, with advances from two to six points in the first hour of trading.

The rest of the market did little. Changes in the rails, steels, motors, communications, electric equipment, coppers and merchandising stocks were fractionally irregular.

American distilling, prime pivot in the whiskey stocks, whose quotations were the feature of the market for the last few weeks, failed to open in the first full hour of trading. Schenley was up as much as 3 1/2, National Distillers 2 1/2, Hiram Walker 3, Austin Nichols 5 and Allied Mills 3.

The bond market opened quietly with prices slightly mixed. Commodity markets were steady to fractionally higher.

RURAL TEACHERS
HAVE INSTITUTE

Concluding Session Featured
By Recognition Of Mem-
bers In Service

County teachers assembled at Union High school Saturday for the concluding institute session, with a large number in attendance.

Dr. L. H. Beeler of Grove City college and Attorney Donald V. Hock of Allentown, Pa., were the speakers, both handling their subjects at the morning and afternoon sessions in an entertaining manner.

A feature of the afternoon session was a recognition service for the men and women of the county schools who are in the armed forces of the country. One of these, Howard Sipe, of Butler county, has made the supreme sacrifice overseas.

The others who were honored, were: Victor F. Thomas, Bessemer, Army; James W. Howley, Bessemer, Navy; Clair Hetrick, Hickory, Army; Randall Park, Mahoning, Army; Mrs. Helen E. McConnell, Mahoning, WAC; Mrs. Mary Bell McParren, Cheverton, WAVES; Miss Jane Bryan, New Wilmington, Pacific Air Navigation; Over, Bomber, Fleet; Mrs. Alfred Barnes, Shenango, Marines; Robert Bost, Shenango, Army; Frank Nocera, Shenango, Navy; Miss Mary Aiken, Shenango, WAC; Edward Roncone, Shenango, Army; Miss Fern Cloak, Union, WAVES; Robert Bowler, Union, Army; Don McGrew, Union, Army; James Cornelius, Scott, Army; Ashley Stevenson, Slippery Rock, Army; Miss Ruth Murray, Union, WAC; Mrs. Wanda McBride, office, WAVES. Another, Wilbur Patterson of Union, has been discharged because of disability, and is back teaching.

Delegates to the annual state PSEA convention were elected at a meeting of the Lawrence county branch of the PSEA, when Walt Whitman of New Wilmington was elected president; Ralph Watson of East Brook, vice president; Mrs. Doris Stoner of Wayne Consolidated, secretary; and Roy F. Conway, assistant county superintendent, treasurer.

The delegates are: High school, Ralph Watson of East Brook, Ralph Speers of Mt. Jackson, alternate; rural, Mrs. Helen W. Rose, and Miss Marie Lee, Williams township; grade, Mrs. Edna Workman and Miss Bernice Magee, Wurttemberg, Perry township.

No Persons Hurt
In Auto Mishaps

Auto operated by Mrs. Mae Hazen, Harmony, R. D. 1, and truck driven by Howard Symons, Stoneboro, R. D. 2, were in a collision east of New Castle on Route 422 Saturday afternoon. No one was hurt. Mrs. Hazen was backing out of a driveway. It was reported, when the truck hit her car, according to reports.

Early Sunday morning, Yeiko Synanon, 510 John street, said the lights from the parked truck of Ed A. Fredin, 10560 Elk street, Cleveland, blinded him and their vehicles were in a collision on Legislative route 37036, near Willowbrook, according to the state police.

No person was hurt in either of the accidents.

YOUNG PIANIST
CONDUCTS ORCHESTRA

NEW YORK, Nov. 15.—(INS)—The musical world today acclaimed Leonard Bernstein, 25-year-old pianist and composer who stepped in on a few hours notice and conducted the entire program yesterday of the New York Philharmonic Symphony orchestra.

Bernstein, recently added to the orchestra's staff as an assistant conductor took over direction of the orchestra when Bruno Walter became ill.

Arthur Rodzinski, the orchestra's permanent conductor who rushed by automobile from Stockbridge, Mass., to arrive during the intermission, declared Bernstein had "prodigious talent".

L.C.U.S. Group
Conducts Meeting

Session Is Held In St. Michael's
Church Rooms Sunday
Afternoon

Lawrence County Union of Sodality held their meeting Sunday afternoon at 2 o'clock in the meeting rooms of St. Michael's church, with the president, Frances T. Corio, in charge.

Father Leo S. Watterson, spiritual director opened with prayer, and an interesting report of the diocesan conference of the Sodality followed by Rev. Fr. Albert M. Inteso, assistant pastor of St. Vitus church; Rev. Fr. Leo S. Watterson, of St. Mary's church, and Rev. Fr. William M. Pisarcik, pastor of St. Michael's church.

Margaret Valley gave a favorable report of the masquerade party held recently. Plans were discussed for the triduum to be held in the near future, and some of the Sodality are planning receptions for December 8.

In January the annual election of officers will take place during the meeting. Rita Metz has called a publicity committee meeting for December 5, at 2 o'clock in St. Vitus church convent hall.

Father Pisarcik gave the closing prayer, and the meeting adjourned until January 9, in the St. Vitus church meeting rooms.

New Castle Gideons
Meet, Elect Officers

Mr. and Mrs. Walter Bender, of 136 Euclid avenue, were hosts over the weekend to the members of New Castle Camp of Gideons and the Ladies Auxiliary.

There was an election of officers as follows: Robert Chappell, president; B. F. Johnson, vice-president; Louis M. Money, secretary-treasurer; A. H. Robb, chaplain; Walter Bender, Bible secretary.

A delicious lunch was served by the hostess, assisted by Mrs. Robert Chappell.

Next meeting at the home of Mr. and Mrs. A. H. Robb, of 844 Franklin avenue.

President Chappell spoke at the First Baptist church, Ellwood City Sunday assisted by Louis Money and A. H. Robb.

An average week will see the construction of 180 bridges by the soldiers of the Fort Belvoir, Va. Engineer Replacement Training Center as a part of their technical training.

Royal Victoria hospital, Belfast, will help its nurses save stockings by permitting them to go bare-legged when on duty.
